

生活禪夏令營與寺院經營之道

遲帥

摘 要

生活禪夏令營一方面促進了大學生參與佛教文化實踐，提高了他們對禪學的認識，另一方面也擴大了以柏林寺為基地的禪宗在知識分子當中的影響。本文是建立在對明海法師以及參與生活禪的多名大學生的深度訪談基礎上，聚焦於大學生與寺院之間的宗教文化互動，針對大學生參與生活禪夏令營活動，考察柏林寺如何協調寺院經營和個人修行之間的關係。本文認為，處理好這一關係成為考驗人間佛教保持價值超越性的關鍵。

關鍵詞：生活禪、佛教、寺院建設、寺院經營

Life Chan Summer Camp and Way of Temple Management

Chi Shuai

Abstract

On the one hand, the Life Chan Summer Camp promotes college students to participate in Buddhist cultural practice and improve their understanding of Chan Buddhism; on the other hand, it also expands the influence of Chan Buddhism based on Bailin Temple among intellectuals. Based on in-depth interviews with Master Minghai and many college students who participated in life Chan, this paper focuses on the religious and cultural interaction between college students and the temple. Aiming at college students' participation in life Chan summer camp, this paper examines how Bailin Temple can coordinate the relationship between temple management and personal cultivation. This paper holds that handling this relationship well is the key to test the transcendence of Humanistic Buddhism.

Keywords: Life Chan, Buddhism, temple construction, temple management
